

## Information Security Resources

### Password Manager Tools

These are all apps that save your passwords securely so that you don't have to remember them all!

*Please note: these may have free trial options, but they do all have a one-time fee*

- LastPass
- Dashlane
- Keeper Security
- RoboForm
- KeePass
- Zoho

### Cell Phone Virtual Private Networks (VPN)

VPN sets up an encrypted connection with your phone and the internet, making it more difficult for your passwords and information to be stolen. These are a good alternative to public networks (e.g. at airports).

- Hotspot Shield Free VPN
- TunnelBear
- Windscribe
- Speedify
- ProtonVPN Free
